PATTERN REPEAT

# WHAT IS RANDOM MATCH?

A Random Match wallpaper is where there is no pattern match across panels. The wallpaper can be placed in any position without having to worry about the pattern matching up at the sides. The alignment of this pattern match doesn't need to be checked either horizontally or vertically.

# QUICK GUIDE

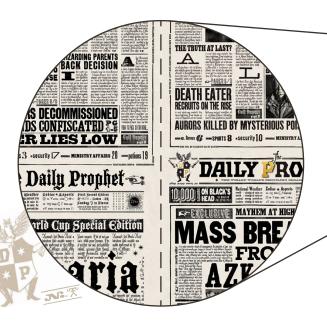

This wallpaper is the easiest pattern match to hang as the pattern has no alignment.

For more information on how to correctly hang your wallpaper, take a look at our full Guide & Instructions.

# HOW TO ALIGN THIS DESIGN

When hanging this wallpaper, there are no elements to align at the edges of the design as each panel contains the full pattern repeat. This design can be positioned in any layout you choose to create your own news compilation.

This wallpaper is based on the iconic props, designed by MinaLima, as seen in the Harry Potter film series.
